Enclosed is the hard drive for **The Peanuts Movie**. Please ingest the contents as soon as possible. On average, it could take up to 24 hours to replace any faulty hard drive/satellite failure, so we ask you to ingest the contents as soon as possible and schedule a quality check screening after the keys unlock the feature. **If you encounter any issues, please call our 24/7 Helpline at 877-272-3870.**

If your theater is running THE PEANUTS MOVIE in a 3D format, please confirm the 3D light level of the auditorium before ingesting its 3D DCP. The 6FL-Xbrite 3D version has been especially color graded to project at 6 foot lamberts 3D. Run this only in theaters that can hit that level of 3D brightness, otherwise the movie will look dark. In your general release 3D houses, run the 4FL 3D version at 4FL, and it will look bright and correct.

A final note: THE PEANUTS MOVIE is in the Flat 1.85 aspect ratio. The short subject, COSMIC SCRAT-TASTROPHE, tied to the head of the feature, has been letterboxed to play in this format. Please leave all masking and projector settings at Flat 1.85. Thanks so much. 20th Century Fox.
